TECHNICAL SKILLS

Programming languages: Python, Java, C ,DBMS.

Web Technologies: HTML, CSS

Database Management: MySQL, IDLE, DEV C++, VS code

Soft skills: Project Management, Team Collaboration, Communication, Problem solving, Time management, Creativity.

PROJECTS

Bank Locker Security System Using Iris Recognition

The Bank Locker Security System using Iris Recognition uses a person's unique iris patterns to grant secure access. It ensures only authorized users can open lockers, making it fast, accurate, and highly secure.

Improved File Security System Using Video or Audio Steganography:

Hiding data within video or audio files enhances confidentiality and protects sensitive information. This method ensures secure and covert file transmission against unauthorized access.

SUMMER INTERNSHIP

- Web Development Intern : Black Pearls
 - Software Developer Intern : Micro IT
-

CERTIFICATES

CISCO certifications in Programming and Networking, Cambridge C1 Level Certification, Oracle Cloud Infrastructure Python for Data Science Certification, Coursera, Python Essentials by CISCO
